收集家居廚餘

# 「100% 生物降解材料」科技 廚餘循環再造新方案 100% Biodegradable Technology: A New Way to Recycle Kitchen Waste

所周知,香港是全球高度繁榮的國際大都會,是全球最富裕、經濟最發達和生活水準最高的地區之一。香港人口密度高居世界第三,在不到1200平方公里的土地面積上有著超過700萬的人口居住,居住於城市的人口佔90%以上。每天,香港製造9782公噸\*都市固體廢物,其中廚餘佔了當中約三分之一,要減少整體垃圾排放量,廚餘是重要一環,廚餘的收集處理及再利用遂成為極需解決的問題。

由於香港欠缺如農畜業大量吸收廚餘的潛力,所以現階段厭氧或者耗氧處理的廚餘產出物基本上沒有任何的經濟價值,直至「100%生物降解材料」科技的誕生,有效提昇由廚餘收集、運輸、處理到再利用整個過程的效益。

不論是家居、餐飲業或食物工廠,也可利用「100%生物降解」包裝產品廚餘收集袋」進行廚餘收集和運輸,在進行生物厭氧或者耗氧處理的時候,「100%生物降解」產品可以完全融入生物處理流程,又不會破壞整個處理過程,減少人工撿出塑膠袋這一

步驟。最終經廚餘生物處理的粉末產出物, 再待進一步脱水脱油、以及超微粉碎後,就 可以作為新的生物質原料,重新添加至生物 降解材料的原料當中,用以製造各類生物降 解產品及原料膠粒,真正實現廚餘利用價值 的最大化,生產更高附加價值的產品,更可 補貼處理廚餘時大量前期投入和運營開支, 實現並產生更大的經濟效益。

「100% 生物降解」技術完成了整個生物生態鏈的健康迴圈,是可作考慮的發展方向,藉著有關廚餘生物處理方案,希望可達至提昇重用、回收及循環再造率,從而減低堆填區的壓力。

#### 廚餘包括什麼?

廚餘泛指所有在生產、加工、食用過程前後剩餘的食物,包括食物當中不能食用的部份,即魚骨和果皮等;有些卻是可以避免產生的,例如因份量過多而造成的剩菜剩飯、因食用期限已過而需丟棄的食物、裝飾伴牒用的食物等。

s we all know, Hong Kong is a prosperous cosmopolitan city and one of the regions that are richest and have the most developed economy and the highest living standards. The population density of Hong Kong ranks third in the world, that is to say, there are over seven million people living on the land area of less than 1,200 square kilometers, among which urban residents account for more than 90%. Every day, 9782 metric tons of solid wastes are made in Hong Kong, one-third of which is food wastes. Only by disposing kitchen waste as soon as possible, can all the garbage be quantitatively reduced. So how to recycle kitchen waste is becoming an urgent problem to solve.

There is no proper way to utilize kitchen waste due to weak development of Agriculture and Livestock Industry in Hong Kong, thus things left by anaerobic or aerobic treatment hardly have any economic value. It is not until the success of 100%

biodegradable technology that the whole process of recycling kitchen waste is improved and then increases benefits for people.

"100% biodegradable" products can be used to package things or put food waste together when you at home or in restaurant or in food plant. Through biological anaerobic or aerobic treatment, they can be completely absorbed into organism, which doesn't destroy all the biodegradation process and needn't people pick plastic bags in garbage at all. While kitchen waste will become a form of powder by biological treatment and after a process of deoiling, dewatering and violently comminuting, the powder will be used as the new biological material. With adding it into biodegradable raw material, various biodegradable products and raw material particles will be produced, which maximizes the value of food waste. Using 100% biodegradable technology, you are able to manufacture higher value-added products to get more benefits that can offset investment and expense in disposing food waste.

With the help of 100% biodegradable technology, kitchen waste finishes a healthy ecological cycle. If this way is further improved, it will dramatically decrease the pressure on landfills. In the future, it will have a better development.

#### What is kitchen waste?

Kitchen waste generally refers to the food left before or after cooking and eating. It includes things that cannot be eaten within food, such as fish bone and fruit peel etc. Some of them can avoid being made, such as leftovers caused by too much food in a meal, some foods beyond expired date and some foods used for decoration etc.

100% 生物降解材料 廚餘袋

投入耗氧廚餘處理設備 第1天

投入耗氧廚餘處理設備第4天 (被設備攪拌已經破碎成片)

# 7 招提升帳號安全 防被盜用

Seven Smart Tips to Account Security

近年不少中小企及個人電腦用戶轉用雲端網絡服務處理日常公事,以節 省開支及增加靈活性。大家要切記做好保安,以防被不法分子盜用帳 號作非法用途。香港電腦保安事故協調中心最近編寫的《個人網絡服務帳 號管理保安指引》,提出7項提升帳號安全的建議,包括:

- 1. 使用雙重認證/兩步認證:用戶需輸入兩組不同性質的認證確認身份。 使用網絡服務時,用戶需輸入帳號和密碼,再透過用戶所擁有的實物認 證工具,例如由保安編碼器產生的一次性密碼;
- 2. 使用應用程式密碼 / 短暫性密碼: 愈來愈多第三方應用程式會支援 OAuth (開放授權) 協定登入, 只需以一個常用的個人網絡服務帳號, 便能登入應用程式。為免密碼外洩, 不少常用的個人網絡服務會提供應 用程式密碼或臨時密碼,產生單次密碼,用於指定程式;
- 3. 啟動監察可疑登入活動功能:部分網絡服務會提供可疑登入活動的通知功能,若系統發現有可疑的登入,便會提醒用戶;
- 4. 切勿以同一密碼登入所有服務:應使用不同密碼登入不同網絡服務,以 免黑客偷取一個帳號的密碼後,能同時登入其餘服務;
- 5. 謹記登出帳號:若用戶以他人的電腦登入帳號,使用後需登出服務,以 免留下記錄。此外建議啟用「無痕模式」或「隱私瀏覽」功能造訪網站;

- 6. 永久刪除不使用的帳號:如用戶停用某網絡服務,應永久刪除帳號,以 減低帳號被盜用的風險;
- 7. 輸入密碼前要三思:用戶每次輸入帳號密碼前,應提高警覺。若存疑, 應先核實網絡服務的真偽。

原文刊於 2016 年 4 月 8 日《經濟日報》 A18 版

In recent years, many SMEs and personal computer users have switched to cloud services for daily business in order to save costs and increase flexibility. Having good information security can definitely save your accounts from being hacked for illegal purposes. The "Personal Internet Service Account Security Management Guideline", recently published by the Hong Kong Computer Emergency Response Team Coordination Centre, recommends seven tips to raise account security. They include:

- Using two-factor authentication / two-step verification: Users are required to input two sets of information of different natures for user authentication. When browsing Internet services, the platform requires a user to input the username and password first before authenticating their identities with a physical item in their possession, for instance, a one-time password generated by a security token app;
- 2. Using app passwords / temporary passwords: Many websites (or applications) support federated login using OAuth protocol. Users only have to login to a specific service account that supports OAuth, and they will be automatically authenticated by various applications without signing up. To avoid password disclosure, the Internet services supporting OAuth also provide "App Passwords" or "Temporary Passwords" functions for users to generate an independent and one-time password for each website/application;
- Monitoring suspicious login attempts: some Internet services provide notifications for suspicious login attempts. Users will receive notifications if suspicious login attempts were detected by the system;
- 4. Using different passwords for different services: Avoid using the same set of password for different service accounts, as when the password of one service account is stolen, the hacker(s) can try using the same password to access other common services;
- Signing-out after use: To avoid leaving your trails on third-party computer(s), always sign-out the service after use, and use "incognito" or "private" mode when browsing;
- 6. Removal of obsolete account(s) permanently: If no longer using certain services, delete the account(s) permanently to reduce the risk of account(s) being stolen; and
- 7. Think twice before entering passwords: Stay vigilant on entering password every time. If in doubt, verify the identity of the service provider(s) first.

# 成功女企業家典範 會董羅台秦博士

Model of outstanding female entrepreneur General Committee Member, Dr. Tai-Chin Lo

作工作,加上同時兼顧各項公職及家庭的事務,實在需要非一般的能耐。今期專訪主角本會會董羅台秦博士正正是一位十分成功的女企業家,同時亦是擔當不同社會公職要務的傑出女性代表。

羅會董出生於臺灣,畢業於臺灣大學物理系,成績優異,其後更負笈美國,修讀物理學博士。畢業後,羅會董留美工作,加入高端科技企業繼續研究工作,及後更與當年的上司自立門戶,合資創業。1989年,羅會董親身加洲世紀大地震,感悟到人生無常的道理,促使她決定放棄美國的事業,接受香港科技大學的邀請,加入科技大學工程學院的創院團隊,以便與在香港的家人團聚。羅會董回港後出任科大微電子製造中心主任,協助科大設立全港首個具規模的半導體實驗中心,更參與科大編定工程學位的課程、策劃研究工作,為科大工程學院的長遠發展奠下基礎。

展的軌道。現時,企業已經多元化發展至房地產、飲食、酒店及金融市場,令企業有長期及穩定的收益回報。

談及管理心得,羅會董自有一套人事管理的看法。她深信只要凡事不執著於自己的觀點,並開闊心胸了解對方的意見和立場,以寬容的態度聆聽別人的意見,並以平常心對待人和事,就是有效處理各種人事關係的不二法門。

羅會董坦言在美國修讀博士的經歷是她成長的契機,在遠離家鄉的異地獨自求學,使她變得堅強和獨立。羅會董的成功之道在於她樂天知命的性格,一切隨遇而安。然而,這並不代表守株待兔,相反羅會董相信「機會留給有準備的人」的道理,積極充實自己的學識和人生閱歷,妥善管理情緒,遇上逆境也不放棄,準備隨時接受不同的挑戰。

羅會董除擔任本會會董外,亦為本會兩岸四地聯誼委員會主席、婦女委員會副主

席、國際華商協進會會長以及仁愛堂副主席,職務繁重,於公餘時,羅會董喜愛閱讀, 認為此舉有助充實心靈,有助其追求實踐身 心平衡、健康生活的人生態度。

A successful female entrepreneur is extraordinarily capable of finishing heavy tasks, coping with different public affairs and doing housework. Being the feature story of this issue, General Committee Member, Dr. Tai-Chin Lo is exactly such a successful female entrepreneur as well as an outstanding female representative who are responsible for various key positions in society.

Dr Lo, born in Taiwan, graduated from Taiwan University with an excellent performance and then studied for her doctorate in physics in America. After obtaining her doctoral degree, Dr Lo was employed into a high-technology company to go on doing research in the U.S. and even,

along with her erstwhile boss, established their own enterprise later. When witnessing the big earthquake happened in California, Dr Lo realized life is always inconstant, which urged her to return to Hong Kong and reunite with her families. She thus gave up her career in America and accepted the invitation from the Hong Kong University of Science and Technology (HKUST) and joining herself into founding team of the College of Engineering. Back to Hong Kong, Dr Lo, as the director of microelectronics manufacturing center of HKUST, took part in setting up the first largest semiconductor lab around the Hong Kong, scheduling courses for engineering majors and carrying on research activities. What she has done laid a solid foundation for a long-term development of the College of Engineering of HKUST.

In 1999, Dr Lo quit the post of associate professor of HKUST, but turned to assist her husband, Dr. Tai Chak Leung Tony to develop their own business. In 2002, Dr Lo purchased her current company, W Haking Enterprises Ltd and served as vice-chairman. By virtue of her market sense, flexibility and creativity, Dr Lo captured a new market saved the company from a business crisis. Furthermore, she is a so farsighted leader that sees the potential of low-cost camera market and succeeds in reorganizing the enterprise to make it step on a bright business road. Now, Dr Lo leads the company to enter into the market of real

estate, catering, hotels & financial Markets, further expanding its business so as to obtain more stable profits and returns.

Referring to her management experience, Dr Lo forms her own idea on personnel management system. She always keeps an open mind and is willing to accept other's opinion. The most effective way to get along with people is to listen to other's view in a tolerant attitude and to treat anyone or anything in a gentle attitude.

Dr Lo said her experience of studying in America makes her grow to be strong and independent. She has a character of accepting and enjoying what she has and where she is, but it doesn't mean she would like to wait rather than to change. On the

contrary, abiding by the truth "opportunity likes those who are prepared", Dr Lo always spends most time acquiring more knowledge and enriching her life. She also learns how to control her emotions. When confronted with problem and challenge, she often chooses to accept and overcome it instead of giving up and running away.

Beside being general committee member of CMA, Dr Lo is also chairman of CMA Greater China Friendship Committee, vice-chairlady of CMA Ladies' Committee, director of International Association of Chinese Traders and vice-president of Yan Oi Tong. In her spare time, she is fond of reading, which helps to enrich her mind, keep a balance physically and mentally and pursuit a healthy life.

# 只要識食識玩,瘦,很簡單 - 3

# As long as you know the trick, slimming is just a piece of cake! (3)

之前有介紹過針對肚腩以及下半身的運動,經過了兩個月,如果大家有跟著建議的 運動鍛練方案和吃的聰明小貼士,相信都應該有明顯成績,也開始知道如何運用 肌肉做運動。

所以,今次會分享兩個全身肌肉都會用到的運動,收線條之餘亦容易燃燒脂肪。

#### 繼續努力,'全身'參與

#### 平板支撑 (Plank)

主要訓練:腹直肌,腹斜肌,腹內斜肌,腹橫肌,背部,腿部,臀部。 這動作可以塑造到腰部,腹部和臀部的線條。

#### 動作

- 開始時先俯臥,雙肘彎曲支撑在地上,膊頭和肘關節垂直於地面
- 一雙腳腳趾踩地,身體離開地面,整個身體伸直
- 一 頭,肩,腳部保持在同一平面,腹部及臀部收緊
- 眼看地面,保持均匀呼吸

#### 組數:

- 初學者: 每次保持 20 30 秒, 2 3 組 - 進階者: 每次保持 45 秒 - 1 分鐘, 2 - 3 組
- 一挑戰者:可懸空提起一隻腳保持20-30秒,2-3組

#### 立臥撑 (Burpee)

主要訓練:全身肌肉

#### 動作:

- 開始時站立,趴低,雙手放地面,雙腿往後撑,做一個俯臥
- 然後收小腿到胸部位置附近成半蹲姿勢,再站起來
- 再加點難度,站起來後可以再沿地跳高一下

#### 組數:

- 一 初學者: 每次10下,2組
- 進階者: 每次 15 下, 2 3 組
- 挑戰者:站起來後可以再沿地跳高一下,每次10-15下,2-3組
- \* 要完成 2 3 組動作是可以在 5 分鐘內完成,所以,把以上的訓練全身肌肉,每天做也是很容易。
- # 在運動前需先行評估身體狀況,如果在運動時感到不適,應馬上停止,不要勉強完成。如果本身有高血壓、心臟病或血管疾病,宜於運動前先徵詢醫生或有關人士之意見。

#### 要吃得聰明

- 下午茶例子

進食下午茶 C 餐(西多士,紅豆冰),他已經攝取了大概 650 - 750 卡路里,與此同時,吸收到的油和糖份也很高。如果把下午茶改為雞蛋麥包三文治加熱檸水走甜,熱量大概是 100 - 200 左右,相比之前的下午茶 C 餐,只是 3 份之 1 左右。

#### - 晚餐例子

進食晚餐 D(中式例湯,星州炒米),他已經攝取了大概 1400 - 1500 卡路里,也超過整天所需熱量的一大半。如果把晚餐改為三色蒸蛋, 焓菜全走加白飯, 熱量大概為 500 - 600,相比之前的晚餐 D,也只是 3 份之 1 左右。

所以,只要吃的聰明,把徒手可以做的運動變成生活的一部份,健康瘦身其實是每個 人可以容易做到的事!

Two months fly. Did you follow the exercise previously introduced to firm your belly and lower body? Together with SMART foodie tips, I believe there will be significant achievements. Don't you? Wise application of muscle exercise comes easily to you now.

Therefore, the below two full-body workouts can give you a slender body figure and burn away your fat.

#### Keep On Going with "Full-body" involvement

#### Plank

Train primarily rectus abdominis, abdominal oblique, internal oblique, transverse abdominus, muscles at your back, legs and hips. This workout can shape a slender body figure for your waist, abdomen and hips.

#### Workout:

- Lie face down in a push-up position. Keep your shoulders and elbow joints perpendicular to the ground.
- Plank with toe tips, lift up your body with your body as straight as possible
- Head, shoulders and feet should be on the same level with your abdomen and hips engaged
- Hold the pose with even breathing and eyes towards the ground

#### **Recommended Exercise Set:**

- Beginner Level: 2 3 sets with plank time of 20 30 seconds
- Advanced Level: 2 3 sets with plank time of 45 seconds 1 minute
- Challenging Level: 2 3 sets with single leg plank by lifting one foot off the ground for 20 30 seconds

#### Burpee

Train primarily full-body muscles

#### Workout:

- Begin in a standing position. Lower your body with your hands placing on the floor. Kick your feet back and do a push-up.
- Kick your feet back to their original position or form a squatting position. Stand up.
- Level-up challenge: Jump into the air after standing up.

#### Recommended Exercise Set:

- Beginner Level: 2 sets with 10 times per workout
- Advanced Level: 2 3 sets with 15 times per workout
- Challenging Level: Jump into the air after standing up; 2 3 sets with 10 15 times per workout
   2 3 sets will not exceed 5 minutes. Therefore, it seffortless for you to complete the above
- exercises per day so as to firm your full-body muscles.

  # Before exercise, thorough body assessment is required. Stop immediately if you feel unwell during workout. People with hypertension, heart or vascular diseases should consult doctor or

#### Be a SMART Foodie!

relevant expertise in advance.

#### Tea Time

A tea set of French toast and red bean ice accounts for 650 – 750 calories which at the same time contains high quantity of oil and sugar. However, egg sandwich with wheat bread and hot lemon water without honey only consume 100 – 200 calories which is 1/3 of the previous menu.

#### - Dinne

A dinner of Chinese-styled soup and Singapore-styled stir-fried rice vermicelli accounts for 1,400 – 1,500 calories which makes up 50% of his daily intake. However, rice with steamed eggs, boiled vegetables without seasoning only consume 500 – 600 calories which is 1/3 of the previous menu.

Eat SMART and integrate exercise into your daily life! Keeping fit and healthy is just a piece of cake!

# 敢於創新 開闢自己的一片天 ONEMALLTIME 顏志華先生

Innovative Spirit: Open Up a New Prospect Mr Wilson Ngan, ONEMALLTIME

統行業的問題,所以不不不行用。 
一次不不不行用, 
一次不不不行用, 
一次不不不行用, 
一次不不有, 
一次, 
一次,

顏氏認為香港傳

業轉型是不少中小企必須面對的問題,而配合 互聯網發展電子銷售是產業轉型的一個良方。 今期專訪主角本會會員勵群包裝實業有限公司顏志 華先生成功帶領企業轉型,早於數年前已創立自家 網銷平台,其成功經驗可為不少企業帶來啟示。

顏氏於 1992 年到內地開設廠房,主力從事珠寶、鐘錶、手飾等包裝盒產品,使他在鐘錶珠寶界累積了一定的人脈。直到 2011 年,顏氏深明傳統的包裝生產行業前景有限,故開始積極策劃建立網上鐘錶珠寶銷售平台,鋭意將企業由傳統的生產加工企業轉型成為電子商資企業。

顏氏坦言建構網購平台曾遇上不少挫折,籌備過程接近兩年,但憑著其堅毅的信念,最終成功創立「Onemalltime 网摩間」,網站更於本年榮獲多個網購平台品牌獎項,深受各界認同。現時顏氏的網購平台有超過一百個品牌,一千款鐘錶珠寶出售,款式包羅萬有,產品主要銷售至東南亞市場,深受馬來西亞及印尼客人歡迎。未來,企業更以進軍大中華市場為目標。

談及經營策略,顏氏直言尤其早年前,鐘錶商對互聯網銷售平台的接受程度一般,企業的規模亦未能獲得足夠的議價能力,使企業面對不少的競爭。故此,顏氏著重提昇網購平台的聲譽,嚴選優惠及高知度的廠商產品,致力打造良好的平台品牌形象,以建立優質的品牌,吸引愈來愈多的客戶光顧。

顏氏加入廠商會已經多年,透過廠商會的平台 認識了各行各業的工商友好,對業務拓展大有幫助。 顏氏期望廠商會能為會員提供更多有關電子商貿的 資訊,協助會員把握電商帶來的龐大機遇。

Developing e-Commerce is a good strategy of industrial transformation that many SMEs will be confronted with in the future. Mr. Wilson Ngan, the leader of Progress Packaging Industrial Co., LTD., who led his enterprise to build his own online promotion platform a few years ago, resulting in a successful transformation. We can learn a lot from what he has done.

In 1992, Ngan set up factory in China Mainland, mainly to produce jewelry case and watch & clock box etc., which made him possess a good network of people. Until 2011, Ngan was aware of the limited development for traditional packaging industry, so he began to create a online promotion platform for jewelry and watch & clock, transforming a traditional manufacturing enterprise into an e-commerce enterprise.

Ngan took almost two years to build his online shopping platform. Although he encountered great many difficulties, the new platform named "One mall time" was established successfully under his sustaining efforts. It was widely accepted by the public and also won several Brand Awards in this

year. Now, more than one hundred brands, over one thousand types of jewelry, watches and clocks selling on his online platform. They are mainly sold to the market of Southeast Asia where all people like them very much, esp. Malaysians and Indonesians. He will lead his enterprise to enter into the market of China Mainland in the future.

Speaking of his business strategy, Ngan said his enterprise was in an inferior position in the past time because of watchmaker's negative attitude towards online promotion platform and weak bargaining power of his company. Realizing that, he puts his focus more on raising good reputation and carefully selecting high-quality product made by renowned company, which helps his e-Commerce platform establish a good brand image so as to attract more and more customers.

Faced with insufficient space to develop their business, Ngan believes that traditional SMEs in Hong Kong should take advantage of the strength of e-Commerce to integrate all kinds of resources and to open up new markets, making them a sustainable development. For his future plan, to complement function of online platform, Ngan decides to create a mobile APP for his online platform, as well as setting up a local store. Thus, these diversified sales channels will sell his products to every corner of the world.

Ngan has been a member of CMA for many years. Through CMA, he met number of entrepreneur in different fields, which help expands his own business. He hopes CMA provides more information on e-Commerce for members and helps them grasp huge chances brought by e-Commerce.

# 用人單位搬廠是否可構成勞動者提出被迫解除勞動合同的理由?

Is it reasonable for employee to require dissolution of the Labor Contract with employer for its plant relocation?

【案情回放】2010年12月,劉某與廣州某材料公司簽訂勞動合同,擔任生產部擠塑員,工作地點為廣州市。2014年5月10日,公司從原經營地址南沙區黃閣鎮搬遷至南沙區東涌鎮,劉某不同意隨遷,要求與公司解除勞動合同,並要求公司向其支付經濟補償金,因雙方未達成一致,劉某遂申請仲裁。案件經過勞動仲裁及訴訟程序,法院終審判决公司無需向劉某支付解除勞動合同的經濟補償金。

【焦點歸納】本案爭議的焦點在於廣州某材料公司的搬遷行為是否屬於劉某認為的構成《勞動合同法》第三十八條(一)項"用人單位未按勞動合同的約定提供勞動條件。"如屬於,則劉某有權提出解除勞動合同並要求公司支付經濟補償金;反之,則其請求應予駁回。

【律師分析】就該類案件,筆者認為應從行政區劃、搬廠對勞動者 生活的影響程度以及適度保護用人單位經營自主權三個方面進行 分析。

首先,根據雙方簽訂的勞動合同約定,劉某的工作地點在廣州,而公司從原經營地址南沙區黃閣鎮搬遷至南沙區東涌鎮,該搬廠並未超出廣州市行政區域範圍。

其次,舊廠與新廠之間僅相距十幾公里,且公共交通相對便利,公

司搬遷基本不會對職工生活造成影響,即使存在影響,也是不顯著的。

第三,企業進行搬遷,通常出於企業自身生產經營之所需,一般宜認 定為屬於企業自主經營範疇,應予保護。

【案例啟示】綜上分析,在通常情况下,對發生在同一行政區劃範圍內的廠址搬遷,且該搬遷未對職工工作、生活造成顯著影響的(如搬遷前後距離不遠,或交通便利或提供相應的交通補貼等),應認定為屬於用人單位經營自主權的範疇,應予保護;該工作地點的變動屬於合理變動。勞動者以用人單位未提供勞動合同約定的勞動條件為由提出被迫解除勞動合同並要求支付經濟補償金的,一般不應得到支持。

[Case Review] In December, 2010, a Labor Contract was signed between Mr. Liu and one plastic firm in Guangzhou. He was to be an extrusion worker whose work place is Guangzhou. On May 10th, 2014, as the firm was to move its plant from the Huangge County to the Dongyong County, all of which locate in the Nansha District, Liu rejected to go, thus requiring dissolution of the Labor Contract with the firm and payment of compensation for his economic loss. Eventually, Liu filed arbitration against his firm for their disagreement. The court made a final judgment that the firm shall not pay compensation for him.

**[Focus On]** In this case, it is controversial whether the relocation of this firm is under the Article 38( I ) of *Labor Contract Law* "It fails to provide work conditions as stipulated in the labor contract". If it is under the Article above, Liu has the right to require dissolution of Labor Contract with the firm and payment of compensation for his economic loss; otherwise, he will be rejected by the court.

[Analysis from Lawyer] For such a case, it should be analyzed from three aspects, as following:

Firstly, as is stipulated in the labor contract, Liu shall work in Guangzhou. Although the firm moves from the Huangge County, the

# ▲【▲內地營商法律專欄

original site to the Dongyong County, it doesn't move beyond the administrative area of Guangzhou.

Secondly, due to only a dozens of kilometers between the old plant and the new one, and having relatively easy access to public transportation, relocation of the firm hardly makes a negative impact on worker's life. Even if some exist, it is not a serious problem.

Thirdly, relocation of the firm should be generally thought of as an act of independent operation, so shall be protected by the law.

[Case Lesson] To sum up, relocation of the firm in the same administrative area, which doesn't cause some troubles for employee's work and life(e.g. a short distance between the old and the new, having a easy access to public transportation and offering the employee transportation allowance etc.) shall be included into the employer's right of independent operation, obtaining protection of the law. The employee should not be supported by the court if he/ she use the Article 38(I) of Labor Contract Law to require dissolution of Labor Contract with the firm and payment of compensation for his economic loss.

# 廠商會獎學金計劃

廠商會獎學金計劃創立於一九六四年,旨在鼓勵勤奮的年青人,當中亦希望藉此增加發展工業的人力資源。每年籌集所得的獎學金,均以捐款人、捐款公司或廠商會名義,頒贈予各專上學院及學校成績優異的學生。本會將繼續擴大獎學金計劃,增加受獎名額,以培育更多專業人才。為使獎學金涵蓋全港中學,現計劃從2016年起,將現有18區450所中學用4年時間分階段頒發獎學金,每年頒發4-5區,約108-110所中學不等。

為貫徹教育的精神,獎學金計劃極需要您的捐款,凡捐款三千元以下者獲贈感謝狀,三千元或以上者可選擇獲贈獎座或感謝狀。敬請下載捐款表格 (http://www.cma.org.hk/files/fckfiles/2016DonationForm.pdf) 填妥,連同支票寄回本會(地址:香港中環干諾道中 64-66 號廠商會大廈一字樓)。如有查詢,請與本會秘書處行政主任周秀虹小姐或行政助理鍾倩儀小姐聯絡,電話:2542 8620/2542 8625。

#### 廠商會獎學金指定受獎學校如下:

香港大學	香港中文大學	香港科技大學	香港理工大學	
香港城市大學	香港浸會大學	嶺南大學	香港教育大學	
香港公開大學	香港樹仁大學	香港專業教育學院*	恒生管理學院	
港專學院	九龍工業學校	中華基督教會扶輪中學	中華基督教會基協中學
